AmbiTag
Ambient data logger

Key Features

- **Auto Generated PDF Report**
- **Long logging period of 90 days**
- **Inbuilt USB**
- **Waterproof (IP 67 Rating)**
- **Plug & Play device, No extra software is needed.**
- **Alarm for Low and High Temperatures.**
- **Multi-Time zone support**
- **Slim and Compact Design**

SINGLE USE TEMPERATURE DATA LOGGER

AmbiTag
Ambient data logger

The AmbiTag temperature logger is a compact device that records the temperature of its immediate surroundings continuously and generates alert when the temperature goes beyond pre-set limits. The recorded data can be retrieved by inserting the USB into any computer.

Techinical Specification

- **Type**   Single use
- **Measurement Range**   −40 °C to +85 °C
- **Accuracy**   ±0.5 °C
- **Resolution**   0.25 °C
- **Memory Capacity**   13000
- **Battery**   3V Lithium CR2032
- **Recording Interval**   10 minutes(Customisable)
- **Recording Duration**   90 days
- **Initial Delay**   30 Mins
- **Protection Class**   IP67
- **Report**   Secured PDF
- **Report Type**   Graphical and Tabular manner in PDF
- **Connectivity**   USB 2.0
- **Alarm Type**   High & Low Alarm
- **High Alarm**   8 °C(Customisable)
- **Low Alarm**   2 °C(Customisable)
- **Re-programmable**   Yes
- **Shelf Life**   12 months

Parameters Re-programmable using our Software

- **Log Interval**   10 min to 19 hour
- **Start Delay**   0 min to 5 Hour
- **Time Zone**   UTC - 14.00 to UTC + 14.00
- **Low Alarm**   Upto -40 °C
- **High Alarm**   Upto 85 °C

File information

File Created time : 18-01-2021 15:24:06
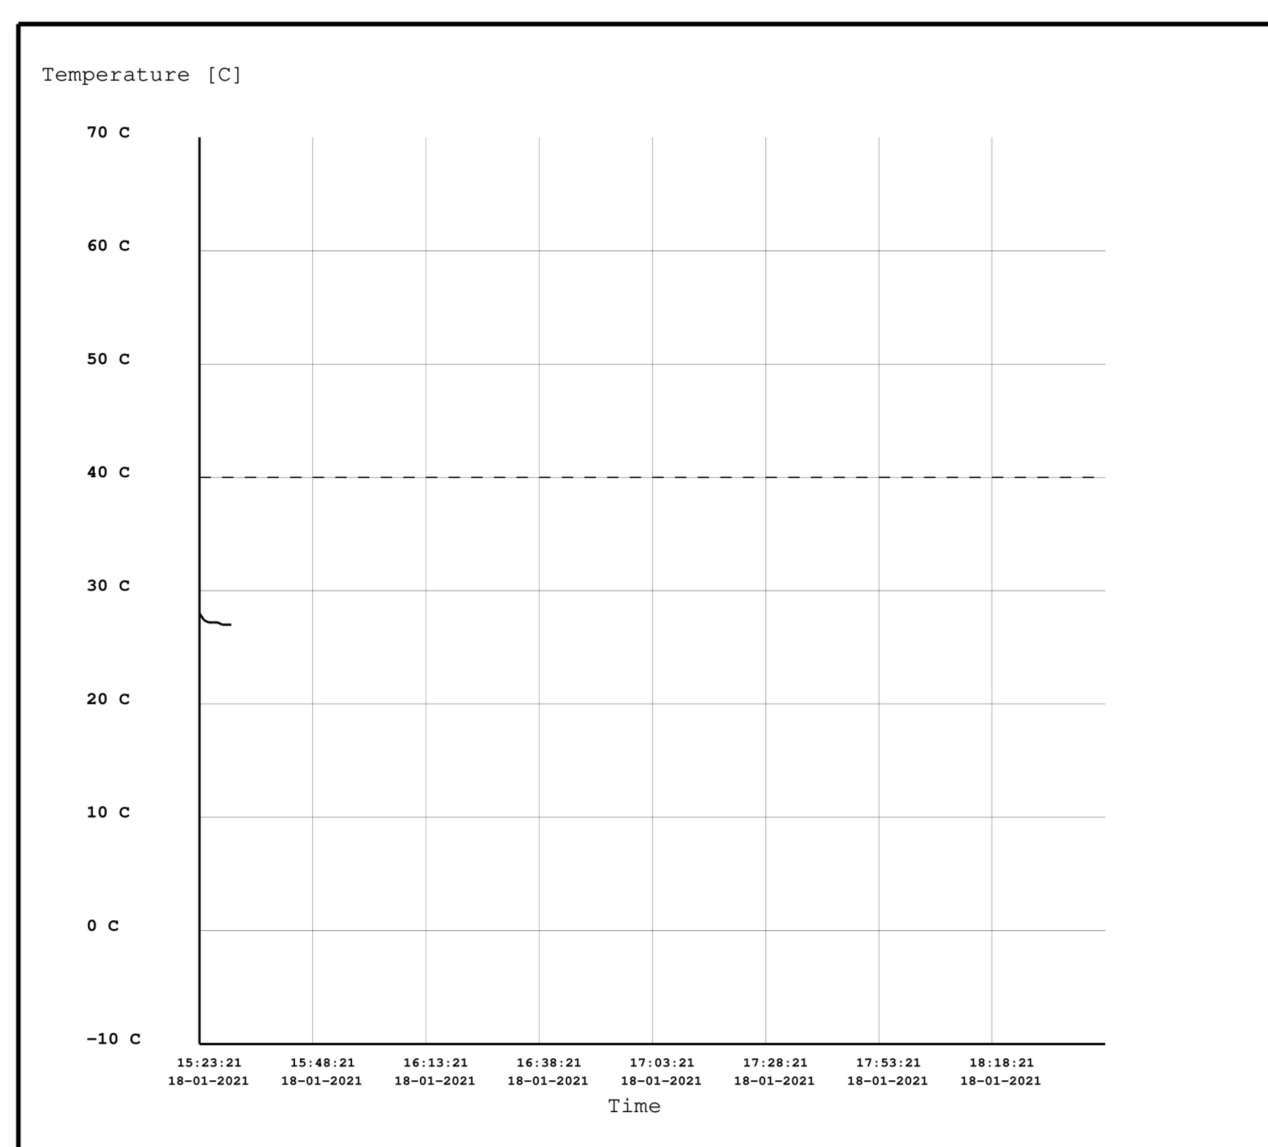

Device Information

Device Type : AmbiTag
ID : 222277820508
Start Delay : 00 hours 00 minutes
Description : Temp Recorded

Firmware Version : 1.2

Log Interval : 00 hours 01 minutes

Logging Summary

First Point: 18-01-2021 15:23:21
Stop Time: 18-01-2021 15:31:21
Number of Points: 8
Trip Length: 0 d 00 h 08 m

Max: 28.000000
Min: 27.000000
Average: 27.281250
